

Grenfell environmental checks: joining instructions to attend a virtual community event on Monday, 20 July at 11am to 12 noon

What is the event for?

This is an opportunity to meet the scientists who are carrying out, supporting or overseeing Stage 2 of the environmental checks around the Grenfell Tower site. You will be able to find out more about their roles, what has happened so far and what will happen next.

You will then have the opportunity to ask any questions you may have about the environmental checks during a question and answer session.

How do I take part?

The event will be hosted on Microsoft Teams Live Events. To take part you will need a desktop or laptop (Windows or Mac), tablet or phone (Android or iOS) with access to the internet. You will also need up-to-date versions of Chrome, Edge, Firefox, Safari, or Internet Explorer 11, as well as speakers or headphones.

To join the event please click on the link below:

<https://bit.ly/2AVWgMs>

Alternatively, you can dial in by phone, although please note this will mean that you won't be able to see the scientists or the presentation.

Please use the telephone number and conference id below to join the event:

Telephone: 044 20 3443 8728

Conference id: 839986701#

We recommend that you join the event a few minutes before it is due to begin.

Who will I meet?

- Professor Alan Penn, chief scientific adviser at the Ministry of Housing, Communities and Local Government (MHCLG)
- Professor Gideon Henderson, chief scientific adviser, Department for Environment, Food and Rural Affairs (Defra)
- David Dyson, Project Manager, AECOM
- Dr Paul Nathanail, Suitably Qualified Person
- Suzanne Kochanowski, Deputy Director, Ministry of Housing, Communities and Local Government (MHCLG)

What are the timings for the event?

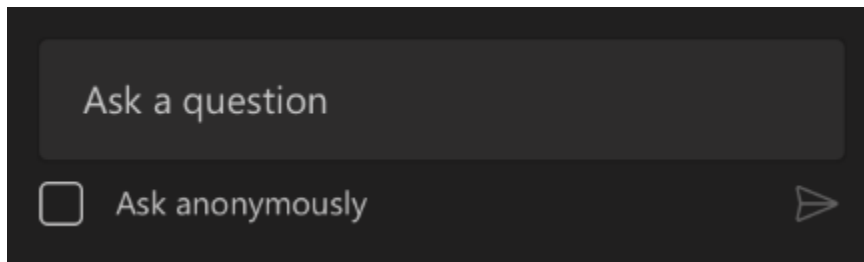

Time	Outline of event	Speaker
11am	Introductions and outline of the event	Suzanne Kochanowski
11.05am	Role of the MHCLG and Defra chief scientific advisers	Professor Alan Penn and Professor Gideon Henderson
11.10am	Reminder of what we did in Stage 1 and introduction to Stage 2	David Dyson
11.20am	Role of the Suitably Qualified Person	Dr Paul Nathanail
11.25am	Question and Answer session	Suzanne Kochanowski
11.55am	Wrap up and next steps	Suzanne Kochanowski
12 noon	End	

Please note the above timings are approximate.

How do I ask a question?

If you would like to ask a question during the event, please follow the steps below:

1. Go to the 'Q&A ' button, which you will find on the right-hand side of your screen.
2. Type your question in the compose box, and then select **Send**. If you want to ask your question anonymously, please select **Ask anonymously**. See on the next page:

3. You don't have to wait until the question and answer session to send in your question.
4. Once you have sent in your question one of the scientists will respond to it during the question and answer session.
5. If there are several questions that are the same or very similar the scientists will give a single response during the question and answer session.

What if my question isn't answered?

We have allowed 30 minutes for the questions and answer session. We hope this will be enough time to answer all your questions on the environmental checks.

Should we run out of time your question and the answer will be included in a question and answer section in the next environmental checks community update.

If there is a specific question that the scientists are unable to answer during the event it will also be included in the community update.

What if I can't attend on the day?

If you are unable to attend on the day, a video of the event will be posted on www.youtube.com/mhclq and we will share the link once it's available.

Following the event, a community update, including a question and answer section and the presentation from the event, will be shared.

There will also be opportunities to meet the scientists and ask them questions at further events during Stage 2 of the environmental checks.

Further information:

Health advice

If any of you are concerned about your health, please contact your GP and ask about the enhanced health check, which is available to you. This is designed to find any early signs of health problems or underlying health conditions. Further information and advice can be found here: <https://www.grenfell.nhs.uk/physical-health/enhanced-health-check>

The Grenfell Health and Wellbeing Service can provide support to children and adults affected by the Grenfell Tower fire. You can find out more at:
<https://grenfellwellbeing.com/>

Contact us

If you want to contact the environmental checks team, you can:
