THE ROYAL BOROUGH OF
KENSINGTON
AND CHELSEA

About the latest plans

This is an exciting opportunity to provide new family homes for the North Kensington area.

The Council wants to build **600** new homes in the borough, including a minimum of **300** affordable homes to rent. This will be achieved by building on land which we already own, without the loss of any existing homes.

Phase 1

The construction of the first 97 homes on our four phase 1 sites is due to start this year.

Phase 2

One of the locations being considered as part of the Phase 2 of our Programme is the Silchester Arches site on Silchester Road. The site is well situated and supported by local transport links including the bus routes along Bramley Road. It is currently being used temporarily by Council contractors who would relocate to an alternative site nearby to accommodate the new affordable homes.

Opportunity to have your say

We held the first round of consultation for the Silchester Arches site in December 2020. The feedback we received highlighted that you wanted a building design that respects the surrounding estate in terms of height and architecture. You also wanted to see shared outdoor space for the new building and a design that addressed air quality and acoustic issues of the site.

In this second round of consultation we will be showing you how we have shaped our proposals to take on board your comments. While we are progressing these proposals we want to know what you think about the opportunities shown in this round of consultation.
